About Me

Development Ninja that loves getting through languages, software stacks and whatever is necessary to solve 'em problems, with a passion for software engineering from a young age and to learn and leverage knowledge from CPU pipelining to β -reduction.

Experience

- Senior Product Engineer *B2B/SaaS*

🇺🇸 NYC (Remote) - Vitally (March 2026 - October 2026)

Worked on tackling quality-of-life problems for Enterprise, alongside on-call duties and implementing new functionality across subsystems.

Tech: Web (JS/TypeScript, React), AI (Cursor, Claude), Backend (Node, Express)

- Senior Frontend Developer *Finance/Fintech/B2B*

🇦🇷 Argentina (Hybrid) - Personal Pay (May 2024 - March 2026)

Instrumental in launching a Point of Sale solution to market, taking the lead in architectural decisions required to unlock seemingly impossible deadlines.

Tech: Web (JS/TypeScript, React), Native (React-Native, Kotlin, Java), Backend (Node, Nest)

- Full-Stack Developer *SaaS/B2B*

🇦🇹 Austria (Remote) - Touchlay GmbH (February 2018 - October 2023)

Designed and implemented complex (user-driven) UI frameworks with a focus on high-performance, modularity and workflow optimization.

Tech: Web+Desktop (JS/TypeScript, Next/React, Electron), Backend (Nodejs, Express, MongoDB)

- Software Developer *Varied*

🌐 Multiple (Remote) - Freelance (Late 2016 - 2018)

Tech: Web (JS/TS, React), Backend (Nodejs, Express), Native (SQLite, C, C++)

Education Business Technology Analyst- UADER, Argentina (2014-2020)

Languages Spanish - Native English - Fluent
